

# GİBTÜ- FACULTY OF ENGINEERING AND NATURAL SCIENCES

## WHY US?

- Being a relatively dynamic, young and innovative faculty within the university.
- The academic staff consists of experienced and expert members.
- To present qualified research, the results of which are published in internationally respected journals
- Availability of audio-visual facilities and computer equipment
- The dean's administrative staff are always ready to help the academic staff and take their work seriously
- Students can easily reach faculty members and discuss their problems
- Successful management of TÜBİTAK, BAP and similar research projects and potential for new projects
- The senior management of our faculty is in an effort to establish and maintain harmonious relations with our stakeholders both inside and outside the institution
- Academic and Administrative Staff to be able to communicate comfortably with senior managers

The basic vision we have adopted as Industrial Engineering; To educate industrial engineers who question, research, produce value, closely follow scientific developments, and to be a department at international standards that contributes to science.

# Departments

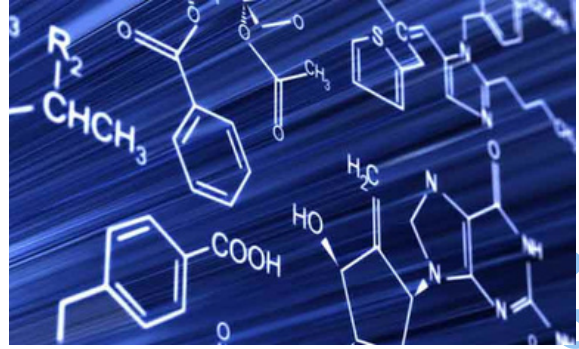

## CIVIL ENGINEERING

The vision of our department is to educate nationally and internationally renowned engineers and to serve the Civil Engineering profession with the public interest. To this purpose, we define the mission of our Department as “to educate students as responsible, open-minded, theoretically and practically equipped, creative, ethical, social, team-playing individuals who think for the benefit of society so that they can contribute to society”.
